

I am a flight attendant here are some concerns we have regarding cell phone on airplanes **There is no hard evidence that cell phone use doesn't interfere with navigational instruments. **Cell phone use would enable terrorists to coordinate a plan of action more effectively. ** The NPRM would leave it up to flight attendants to police the use of cell phones onboard the aircraft compromising our ability to maintain a safe, secure cabin environment and to conduct emergency evacuations. **It would make an already tense cabin environment even more stressful
